**BUILDING A BETTER FUTURE** We're now also focusing on "building-back-better" so that we can make a vital contribution to the long-term rehabilitation of Haiti.

Your support has helped save lives in Haiti. Our emergency teams have provided more than 80,000 people who have lost everything with access to clean water, safe sanitation and temporary shelter. Over the coming months, Oxfam will continue to work with communities, helping them rebuild their homes and their livelihoods.
